AEV BRUTE CONVERSION

BRUTE BED

The 61" x 60" bed is an injection molded cored composite that is not only stronger than steel but considerably lighter. Includes a urethane based, skid resistant bed liner.

HARDTOP

The unique hardtop design retains the factory freedom panels for an open air driving experience.

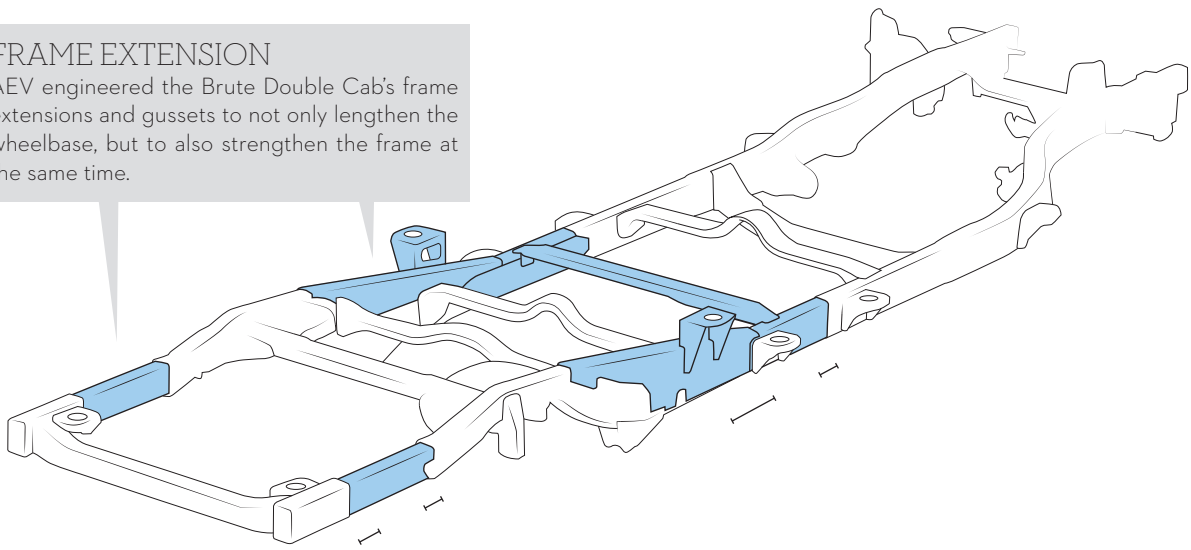

CAB CLOSEOUT

The Brute's stamped steel body panels and bulkhead use the same quality materials and coatings as the original factory body.

FRAME EXTENSION

AEV engineered the Brute Double Cab's frame extensions and gussets to not only lengthen the wheelbase, but to also strengthen the frame at the same time.

EXTERIOR

AEV PREMIUM FRONT BUMPER with IPF 901 Lights and WARN 9.5cti WINCH

AEV's signature stamped steel bumper. Constructed of heavy gauge steel, this bumper retains the factory airbag crush cans and fog lamps, and offers protection and style like no other. The IPF 901 Off-Road Lights feature a tough, heavy gauge steel body and 100w H9 Halogen Bulbs. The Warn 9.5cti is a 9,500 lb winch and includes remote, carrier, 7.5-foot power lead with quick connect plug, and a roller fairlead.

Standard: DC350

Bumper with Lights and Winch

Retail Price: \$3,839.00

Bumper with Lights, No Winch

Retail Price: \$2,361.00

WARN 9.5ctis WINCH

Available as an upgrade, the Warn 9.5ctis adds a 100-foot Spydura™ synthetic winch rope and a Hawse fairlead. For even greater pulling capacity consider upgrading to a Masterpull winchline.

Standard: N/A

Optional: DC350

Retail Price: \$344.00

Warn 9.5ctis Winch w/ Hawse Fairlead

MASTERPULL SYNTHETIC WINCHLINE

Replace the stock steel winch line with this synthetic line from Masterpull. Synthetic lines are not only easier to handle but are also safer, without the risk of hand lacerations from a frayed metal line or the potential danger of a snapped steel line. Breaking strength is 21,000 lbs. For heavy duty extractions particularly from mud.

Standard: N/A

Optional: DC350

(prerequisite: Warn 9.5cti Winch)

Retail Price: \$781.00

AEV FAIRLEAD LICENSE PLATE MOUNT

AEV Fairlead License Plate Mounting Kits offer a quick and easy solution for mounting a license plate to an AEV Premium Front Bumper. Two different mounting configurations are offered to accommodate either a Hawse or Roller style fairlead.

Standard: N/A Optional: DC350

Roller Fairlead Mount

Retail Price: \$36.00

Hawse Fairlead Mount

Retail Price: \$51.00

AEV Front Bumper with IPF 901 Lights and Warn 9.5cti Winch

AEV FRONT BUMPER SKID PLATE

AEV's 1/8-inch stamped steel Skid Plate protects your sway bar, impact beam, and steering linkages, and has dedicated lift points for a Hi-Lift Jack. Recommended for off-roaders.

Standard: DC350

Retail Price: \$435.00

AEV Front Bumper Skid Plate

IPF HEADLIGHTS

When most people consider vehicle lighting improvements, they immediately think of off-road lights. However, while a good set of off-road lights will greatly improve the high beam performance of your 4WD, they won't provide any assistance on low beam. To get optimum lighting performance from your vehicle, we recommend a headlight replacement system be installed in conjunction with driving lights.

Standard: N/A

Optional: DC350

Retail Price: \$274.00

IPF HID OFF-ROAD LIGHTS

For owners that demand the very best in auxiliary lighting, IPF's 900 HID lights utilize the very latest High Intensity Discharge technology to produce the truest, most natural light possible.

Standard: N/A

Optional: DC350

Retail Price: \$899.00

AEV BRUTE ROCKER GUARDS

Extended Rubicon Rocker Guards are a required addition to any Brute conversion. Base vehicles in either Sport or Sahara trim levels will need to purchase this option.

Standard: DC350 (Rubicon)

Optional: Sport, Sahara (required)

Retail Price: \$750.00

AEV HEAT REDUCTION HOOD

AEV's Heat Reduction Hood provides both fresh intake air and critical cooling for the Wrangler. The Hood's design is not only functional, but sets your vehicle apart from the rest with aggressive styling.

Standard: DC350

Retail Price: \$1,608.00

AEV Heat Reduction Hood

AEV SNORKEL AIR INTAKE

AEV's Snorkel air intake system is the essential engine protection accessory for overland adventurers whose brand of exploration includes the deepest water crossings and the dustiest dirt roads. Constructed from nearly indestructible cross-linked polyethylene, AEV's Snorkel is available with an Air Ram scoop (most popular) or highly effective, cyclonic Pre-Filter for use on vehicles that will frequently be driven in dry, desert terrain where thick dust is likely.

Standard: N/A

With Air Ram—Retail Price: \$544.00

Optional: DC350

With Pre-filter—Retail Price: \$648.00

Air Ram

Pre-Filter

AEV Snorkel

AEV DOUBLE CAB REAR BUMPER

The solid steel construction of the Brute Double Cab's Rear Bumper offers unparalleled bed protection both on and off the trail, while the upswept profile maximizes the Brute's rear departure angle. The Rear Bumper also features an OE-quality, 2-stage coating process to provide superior UV and corrosion resistance. Two 3.5 gallon water tanks are integrated into the Rear Bumper, along with mounting provisions for both a license plate and optional AEV Splash Guards.

Rear Bumper—Standard: DC350

AEV Double Cab Rear Bumper

AEV DOUBLE CAB UNDERMOUNT TIRE CARRIER

No need to worry about losing your spare when converting to a Brute. AEV has engineered the solution with an undermount tire carrier below the bed.

Standard: DC350

Undermount Tire Carrier

AEV Water Pump Kit

AEV WATER PUMP KIT

This anti-gravity pump screws on to the integrated water tanks on your AEV Rear Bumper.

Included with the Rear Bumper

Standard: DC350

BRUTE TONNEAU COVER

AEV's optional Tonneau Cover is designed to keep your gear out of sight and well protected from the elements. The convenient tri-fold design allows for quick and easy operation under any condition.

Standard: N/A

Retail Price: \$725.00

Optional: DC350

Brute Tonneau Cover

AEV REAR BUMPER SPLASH GUARDS

These removable Splash Guards mate up with AEV's Rear Bumper and provide protection from mud, rocks and all sorts of other hazards.

Standard: N/A

Retail Price: \$115.00

Optional: DC350

(Prerequisite: AEV Rear Bumper)

AEV Rear Bumper Splash Guards

AEV REAR SLIDER

AEV's Rear Slider is a rear differential skid plate built from 1/8-inch steel that will not only keep you from getting hung up on your diff off road, but will also protect the vulnerable lower CV Joint. It is specially designed to fit the JK axle and takes up virtually zero ground clearance. Recommended for rock crawlers.

Standard: N/A

Retail Price: \$326.00

Optional: DC350

AEV Differential Cover

AEV DIFFERENTIAL COVER

The AEV DANA 44 Differential Cover adds both refined styling and rugged protection to your JK's front and rear differentials. Designed specifically for the 2007+ JK Wrangler, the AEV DANA 44 Differential Cover is manufactured out of nodular iron and is engineered to strengthen the differential housing while also protecting the ring and pinion from the rigors of off-roading.

Standard: N/A

Retail Price: \$259.00

Optional: DC350

AEV Logo Headrests

PAINT

PAINT HARDTOP INTERIOR

Repaint the stark white interior of the factory hardtop in Charcoal Gray or Black.

Standard: DC350

Optional: N/A

BODY COLOR MATCHED FLARES

Replace the textured black fender flares on a Sport or Rubicon with smooth Sahara-style flares, painted body color to match.

Standard: N/A

Retail Price: \$1,800.00

Optional: DC350

AEV White Gauge Cluster

INTERIOR

AEV LOGO FRONT HEADRESTS

In cloth or leather to match your vehicles interior, these headrests sport AEV's classic bison logo.

Standard: DC350

AEV WHITE GAUGE CLUSTER

Replaces the factory gauge cluster. Available on 2011+ Vehicles.

Standard: DC350

AEV BUILD PLAQUE

The build plaque is located inside the door jam on the passenger side and authenticates all genuine AEV vehicles. Includes individual serial number and year of manufacture.

Standard: DC350

AEV Build Plaque

AEV STANDARD LEATHER INTERIOR

AEV custom leather seat covers (front and rear) with accent color stitching and AEV logo.

Standard: N/A

Retail Price: \$1,600.00

Optional: DC350

AEV PREMIUM LEATHER INTERIOR

An AEV exclusive design that combines classic Detroit muscle styling and quality leather for a unique Jeep interior.

Standard: N/A

Retail Price: \$2,100.00

Optional: DC350

AEV F-1 LEATHER INTERIOR

AEV custom F-1 style leather seat covers (front and rear) are made from a higher grade leather than our Standard Leather Interior. With accent color stitching and AEV logo.

Standard: N/A

Retail Price: \$3,100.00

Optional: DC350

AEV FRONT SEAT HEATERS

Driver and passenger front heated seats provide extra warmth on chilly days. Seat heaters are available for both leather and cloth interiors.

Standard: N/A

Retail Price: \$500.00

Optional: DC350

AEV CORDURA® SEAT COVERS

AEV Seat Covers offer the ultimate protection for your seats. Made of waterproof, 1000 denier Cordura® and featuring the AEV logo embroidered on the front headrests.

Standard: N/A

Retail Price: \$804.00

Optional: DC350

AEV FLOOR LINERS

AEV Front and Rear Floor Liners add all-weather protection and distinctive styling to the interior of your Brute Double Cab.

Standard: N/A

Retail Price: \$170.00

Optional: DC350

AEV Standard Leather Interior

AEV Premium Leather Interior

AEV F-1 Leather Interior

AEV Cordura® Seat Covers

AEV Front and Rear Floor Liners

SUSPENSION

AEV 3.5-INCH DUALSPORT SC SUSPENSION LIFT

AEV's 3.5-inch DualSport SC Suspension Lift was engineered by former Chrysler/Jeep engineers to provide maximum off road performance and articulation, without sacrificing on-road handling or safety. Special attention is paid to suspension geometry as well as custom spring and shock tuning, resulting in the best overall suspension package available in the market. The DualSport SC kit includes frequency-tuned progressive rate springs, custom-tuned shocks, a geometry-corrected rear trackbar tower and trackbar, rear stabilizer end link, heavy duty steering damper, and front control arm drop brackets. Used with 35-inch tires and recommended for off-roading and for customers who want a more aggressive vehicle stance.

Standard: DC350

AEV 3.5-INCH DUALSPORT RS SUSPENSION LIFT

The DualSport RS is a step above our popular DualSport SC thanks to the addition of a set of proprietary AEV-tuned Bilstein 5160 Remote Reservoir Shocks. These shocks offer increased performance for our customers who regularly travel over long distances of rough terrain. The AEV 5160's feature a custom tune developed jointly by Bilstein and AEV engineers specifically for AEV's DualSport Suspensions.

Standard: N/A

Retail Price Upgrade: \$638.00

Optional: DC350

AEV PROCAL MODULE

AEV's easy-to-use ProCal Module provides a simple means for making a number of calibration and programming changes to the Wrangler. Topping the list is the ability to correct the speedometer and gear ratio when larger tires are installed. When the speedometer is left uncorrected, there is a major degradation in the performance of the stability control (ESP), transmission shifting, and engine performance, not to mention an incorrect odometer. The ProCal can also be used to change the Tire Pressure Monitoring System, activate daytime running lamps, or temporarily increase engine idle speed for winching operations.

Included with all AEV Suspensions

Standard: DC350

Optional: N/A

AEV Procal Module

AEV 4.5-DUALSPORT SUSPENSION LIFT

The same quality engineered suspension as our 3.5-inch lifts with a little more height to clear 37-inch tires.

Standard: N/A

Retail Price Upgrade: \$100.00

Optional: DC350

AEV HIGH STEER KIT

AEV's High Steer Kit optimizes steering and roll center geometry, creating better front end handling. Also allows for a larger/relocated steering damper and relocated stabilizer end links.

Included with the AEV 3.5-inch DualSport SC or RS Suspension

Standard: DC350

Optional: N/A

AEV High Steer Kit

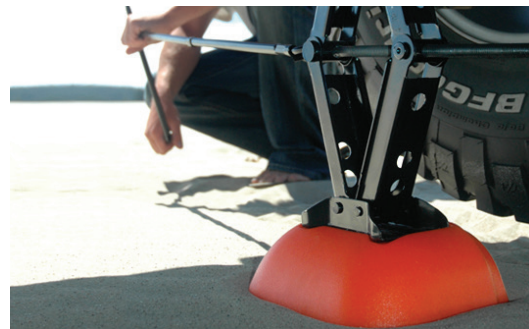

AEV JACK BASE

The Wrangler's stock jack isn't tall enough to change larger diameter tires, but AEV's Jack Base provides 3.5 inches of added lift height to the stock jack, allowing tires of up to 37" or more to be changed with ease. The larger base gives the jack better stability in off-road and soft soil conditions. Handy compartments in the base store your AEV lug nut extension, and there's even a slot for the OE wheel lock key. The Jack Base is shaped to fit neatly into the rear floor compartment and out of sight, and can also double as a wheel chock to prevent a disabled vehicle or trailer from rolling.

Included with all AEV Suspensions

Standard: DC350

Optional: N/A

AEV Jack Base

AXLES

DYNATRAC PRO ROCK 44 FRONT AXLE

Replace your factory front axle with this heavy duty axle from Dynatrac. Includes new RCV chrome molly axle shafts. Sport and Sahara models include ARB lockers for the rear axle.

Standard: N/A Retail Price: \$5,379.00 (Rubicon) \$8,284.00 (Sport/Sahara)
Optional: DC350

DYNATRAC PRO ROCK 60 REAR AXLE

Replace your factory rear axle with this heavy duty axle from Dyantrac. This axle comes standard with air loaders, so we also include an ARB compressor to power it and an ARB tire fill kit for added convenience.

Standard: N/A Retail Price: \$8,393.00
Optional: DC350

AEV DIFFERENTIAL GEAR UPGRADE

Upgrading the gear ratio will improve the vehicle's acceleration and performance when increasing tire size. Consult your AEV representative for recommendations based on vehicle package.

Standard: N/A Retail Price: \$1,623.00
Optional: DC350

DIFFERENTIAL CARRIER

Required when upgrading gears on a manual transmission Sport or Sahara with stock 3.21 gears.

Standard: N/A Retail Price: \$674.00
Optional: DC350

WHEELS AND TIRES

AEV SAVEGRE WHEELS

The 17" Savegre is the newest addition to AEV's wheel lineup and was specifically designed for JK Wranglers running tires that are larger than stock. Made from high strength A356/T6 aluminum. Available in Black, Silver or Argent.

Standard: DC350 Retail Price: \$1,436.00

AEV PINTLER WHEELS

The 17" Pintler is AEV's classic wheel design and was specifically designed for JK Wranglers running tires that are larger than stock. Made from high strength A356/T6 aluminum. Available in Argent, Silver or Black.

Standard: DC350 Retail Price: \$1,436.00

35-INCH ALL TERRAIN TIRES

All Terrain tread provides better handling on road, particularly in wet conditions or light snow. Recommended for customers who want the best on-road handling and may not use the vehicle for much off-roading.

Standard: N/A Retail Price Downgrade: \$207.00
Optional: DC350

35-INCH MUD TERRAIN TIRES

The Mud Terrain tread is ideally suited for rock crawling, mud or deep snow. Tread appearance is also more aggressive than the All Terrains. Recommended for off-roaders or customers who will encounter mud and deep snow.

Standard: N/A Retail Price: \$2,173.00
Optional:

37-INCH TIRES

Upgrade to 37" tires in either an All Terrain or Mud Terrain. Requires 4.5-Inch Suspension Lift.

Standard: N/A Retail Price: \$400.00
Optional: DC350

POWERTRAIN

FACTORY 3.6L PENTASTAR V6 ENGINE

The Wrangler's V6 engine puts out 285 hp and 265 lb/ft of torque.

Standard: DC250, DC350

Optional: N/A

AEV 5.7L HEMI ENGINE CONVERSION

AEV can replace your factory V6 with a 5.7L V8 HEMI that puts out 372 hp and 398 lb/ft of torque. AEV has designed and manufactured all the custom components, including the electronics and calibration, necessary to make the HEMI work seamlessly in the Wrangler. Recommended for the powersports enthusiast.

Standard: N/A

Optional: DC350

Retail Price: \$21,900.00

AEV 5.7L HEMI Conversion

AEV 6.4L HEMI CONVERSION

Take it to the limit and upgrade your factory V6 with a 6.4L V8 HEMI that puts out 470 hp and 470 lb/ft of torque. AEV has designed and manufactured all the custom components, including the electronics and calibration, necessary to make the HEMI work seamlessly in the Wrangler. Recommended for the powersports enthusiast.

Standard: N/A

Optional: DC350

Retail Price: \$29,900.00

AEV 6.4L HEMI Conversion
