OUR TOP EXPEDITION TRAILER MODULES

Head out the campground or even the Outback without leaving all the comforts of home. NutHouse Expedition Trailer Modules offer everything you need without all the weight and bulk you don't.

1

CAMPER MODULE

Rooftop tent or quarters configuration of your choice. Adjustable frame is large and strong enough for the biggest RTT's available. The frame is adjustable in height to accommodate most annex rooms as well.

2

COOKING MODULE

A premium Partner propane stove in a side mounted aircraft grade aluminum box with a standard propane tank connection. Cook dinners quickly and easily on this high quality stainless steel stove.

3

REFRIGERATOR MODULE

Reliable ARB Cooler with convenient slide out tray and cooler cover. Also comes with a 12 V connection. Never worry about ice or food safety again while on your camping trip or expedition.

4

FRESH WATER MODULE

No water hookup? No problem. Fresh water systems to last the entire trip start at 25 gallons and go up to 100+ gallons on larger trailers. Features: 12 Volt demand pump, City Water connection and 2) Outside faucets. Cook, clean and shower anywhere.

5

HOT SHOWER MODULE

An Ecotemp L5 shower unit, water hose and standard propane connection hose. Take a hot shower without leaving the camper with this instant hot water system.

6

12VOLT SYSTEM MODULE

Powerful and long lasting deep cycle batteries with a reliable onboard charging system This system keeps all of the 12 V powered onboard items up and running strong.

7

SOLAR CHARGING MODULE

Efficient solar panel and regulator systems from 100W up keep the 12 Volt batteries charged and ready for service. Go for extended periods of time in the outback when no electric is available.

8

AWNING MODULES

Plenty of shade for the sunny days at the campsite or a place to stay dry when it rains. Easy to mount and operate, our awning packages are designed for harsh Outback conditions. Lightweight and convenient protection from the elements.

9

TOILET SYSTEM

No facilities? No problem with our Joh-ny Partner toilet system. The campsite's best friend can last the entire trip with enough capacity to accommodate 4 people on a fifteen day trip (60 person days). No odor aluminum construction.

10

YOUR CUSTOM MODULE

Have other ideas for your expedition trailer? We'll help make your dreams reality.
